

WELDED

MKT Metal Manufacturing specializes in the production of Commercial and light Industrial Ductwork, as well as high quality HVAC products. Our cutting-edge equipment and meticulous processes enable us to generate large volumes of fabricated products which meet the highest industry standards. We are committed to delivering exceptional customer service and ensuring that all projects receive the highest quality products by utilizing our expertise in the fabrication of custom materials.

MKT's specialty fabrication and welding division provides fabricated products suitable for a variety of applications. Our team of highly skilled and D9.1 certified welders and fabricators utilize advanced equipment and materials to guarantee the success of your project. Whether you operate in the Pharmaceutical, Medical, Food Processing, Manufacturing, or Industrial industries, we can tailor our services to your specific requirements.

Products Include: (but are not limited to)

- Ductwork for:
 - Dust, Fume and Particulate Collection
 - Exhaust Systems
 - High Pressure Systems
- Hoods
- Equipment Rails
- Roof Curbs
- Supports
- Dampers
- Plenums
- Low Wall Returns
- Adapter Curbs
- Hoppers
- Quench Systems
- Enclosures
- Guards

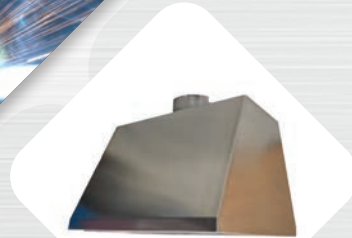

Capabilities:

- Bending – Up to 1/4" carbon steel and aluminum, 1/8" stainless steel
- Rolling – Up to 1/8" carbon steel and aluminum, 10Ga stainless steel (diameter limitations may apply)
- Welding – TIG and MIG welding
- Polishing – To desired/specified requirements, upon request

Applications Include:

- Dust Collection
- Odor Control
- Exhaust Systems
- Material/Particulate Collection
- Light Industrial

- **GAUGES:** 16 – 1/4" mild steel, 18 – 1/8" stainless steel
- **VARIATIONS:** Single & Double Wall (fiberglass, closed-cell foam, fibrous board, etc.)
- **MATERIALS:** Galvanized, Galvanneal, Black Iron, specialty coated
- **SIZES:** Approx. 5 ft. joints (size differs based on roll forming capabilities)
- **SEAMS:** Longitudinal weld, Pittsburgh, Snap Lock
